ISSUE NO. 3

1 December 2025 – 31 May 2026

Bologna for Science Education in Palestine and Jordan

The BASE project aims to elevate higher education in Palestine and Jordan by implementing the Bologna Process within one selected science programme from each college of science at partner universities. The project builds updated study plans and an enabling environment to support sustainable academic development at each Higher Education Institution (HEI).

**Funded by
the European Union**

Prepared by: BASE Communication & Dissemination Team (WP8)
Network of BASE Partner Universities — Palestine & Jordan
